6/3/82

Dear Jan M.,

Thanks very much for your letter of the 25th and the enclosures. They are interesting and historically/ valuable.

If you get a chance to explore more of the Ford deposit, I think one of the possiby more fruitful areas will be the commission's executive sessions. If any transcripts of them are available I'd appreciate a list. Some of his writing notes about them might be available and also interesting. Also any memos on his conversations with Cartha DeLoach of the FBI, whose informant Ford was.

Best wishes,
